Student Experience at ACT

Let's hear what they have to say about their learning experiences at ACT

It was an absolute pleasure to breeze through this course. My course coordinator (Nina) was extremely helpful and always attended to my queries in a detailed manner and extremely quickly, too. I'll definitely be signing up for more courses with ACT in the future.

RYAN LUKE WILLIAMS
Course: Post Graduate Diploma in Education and Teaching (PGET)
VIETNAM

The college is well structured, I enjoyed the course and I have learned a lot, the feedback from assignments comes sooner than expected which is great for time management. If you send a query it gets resolved within 24 hours. I have enjoyed my studies and would like to continue for more.

MIHLA NICHOLAS BIXA
Course: International Teaching Diploma
SOUTH AFRICA/ PRETORIA

The course was very engaging. Course materials could easily be comprehended. The objective feedback from tutors was very encouraging.I am personally impressed with the progress I have made so far. I am considering going in for a degree

ERIC SHU NGWA
Course:Diploma in Educational Administration & Management
GERMANY, NORDHEIM

Overall I enjoyed studying with you. Your course content is easy to comprehend even for a non-native English speaker (such as myself). The assignments were challenging but not too hard to accomplish. Personally I would have liked to be contacted by my course coordinator once in a while just to check in with me how my studies were going and perhaps remind me of my due dates for assignments.

JUDITH ARNDT
Course: International Teaching Diploma
THAILAND, NONGKHAI

It was indeed a wonderful experience being a student of ACT, comfortable and self-disciplining, time-managing mode of learning. This ignites my passion for learning and exploring the aspects of education. Being a domestic worker, it is challenging to work and study at the same time, but the mode of learning is really helpful as there is no pressure and that I can access the lesson anytime anywhere. Looking forward to more learning opportunities and being part of the ACT family. More Power ACT!!!

JENNY ROSE ANTONIO B
Course: Certificate in Pre & Primary Teaching
SINGAPORE

To learn education management and to achieve a diploma in the field of Education management and administration are one of my professional and personal goals. Now, I have fulfilled this goal. Although there were limited resources and transparency regarding educators' profiles within this online course, the course content effectively imparted the vital knowledge and skills of educational management I was eager to explore. I would like to express my gratitude to all those who contributed to the creation of this program and supported me throughout the duration of the course.

PHYUU THET PAING
Course: Post Graduate Diploma in Education Management
MYANMAR, MANDALAY
